Prices noted in this list supersede all former listings

Out here "Where the West Begins" the mile-high altitude, the dry air, the abundant sunshine—all combine to produce clean, healthy stock.

Winters are cold enough to eliminate varieties that will not do well in every section, yet not severe enough to cause loss or weakening of plants from heaving of the roots.

Finest reports on "Top of the World" Iris from all parts of the United States and Canada.

Extra "Good Measure"

With each Iris order of $1.00 or more, will be sent free, an extra variety, my selection. The larger the order the more valuable the "Surprise."

HOW TO GROW IRIS

My new revised Iris culture leaflet (over 2,000 words) will be sent **free with each Iris order.** (Or for a 3 cent stamp if no order.)

This folder gives you many secrets of success in Iris growing. Worth dollars, but free with orders, as offered above.

When to Plant Iris

Open Season for Iris. Iris may be reset any time when the ground isn't frozen. Best time is from midsummer to last of October. Many of the most satisfactory results I've ever had were from Sept. and Oct. plantings, while a big patch was set out late Nov. and did splendidly.

Each Iris Root Plainly Labeled
(S means Standard; F means Falls.)
Prices are per each for standard divisions

MAKE UP YOUR OWN COLLECTIONS

LILY OF THE VALLEY

LILY OF THE VALLEY answers that question: **"What can I grow in shade or partial shade?"** Thrives also out in the open, but is especially valuable for places where many other flowers will not grow. May be planted in clumps, or the clumps may be pulled apart, making 30 or more single roots. Good way to get quick results is to make 8 to 12 smaller clumps from the one I send you. Use fine sand liberally in soil when planting, give plenty of water, and your plants will bloom and spread nicely. Clump..... **$1.00**

Plant any time before ground freezes. Easy to grow. When become too thick to thrive well, thin them out, and give surplus to your neighbors.

Shirley Temple

A New Glad as Lovely as "Shirley in Person"

A beautiful new heavily ruffled immense cream (almost white), with deeper yellow throat.

Six well placed blooms of heavy substance on a long spike of eighteen florets. Edges of petals beautifully frilled. You will say that the name, SHIRLEY TEMPLE, just fits.

Husky foliage, yet grows from five to six feet tall, and is a good propagator. Quite likely to bloom from bulblets, the spike and blooms being smaller, of course, than from bulbs, but lovely.

This wonderful new Glad, originated by D. S. Pruitt, is one of the best of this year's introductions and is destined to become as popular a star with Glad lovers as its namesake is in the movies.

On exhibition at the Oregon Glad Show year 1937, Shirley Temple was awarded first for the best seedling in the show, the largest individual floret and was easily the best spike in the entire show.

Shirley and her parents saw this Glad on display and graciously consented to its being named for America's little sweetheart.

PRICES: (Large bulb, 75c) (Medium bulb, 40c) (Small bulb, 20c).

BULBLETS: 2—10c; 10—40c; 100—$2.50; 1000—$20.00; Quart, $50.00. Prepaid.

"Glad Gossip," 10 Cents

"Glad Gossip" is a 24-page booklet I wrote to help both amateurs and professional growers get the most pleasure and profit from their Glads. Doesn't tell all there is to know about Glads, but tips you off about many points of vital interest.

Among other things, about eight pages are given to **thrips.** Many who followed my suggestions last season solved their thrips problems, and have renewed their enthusiasm for growing Glads as a hobby or for market.

The price is 10 cents. If not worth 10 cents then it isn't worth sending for. It's been worth dollars to many Glad growers. "You'll be surprised."

Free with Glad orders amounting to $1.00 or over, if asked for when order is sent. Really ought to have required a larger order for free copy, but send as big an order as you can, $1.00 or more, and "Gossip" is yours. Otherwise, 10c please.

LONG'S ANNUAL FALL SALE OF GLADIOLUS BULBS

At Digging-Time Prices—Fall Delivery

It's good business to buy Glads in the fall. Fall buying gives you the pick of the stock, assures your getting the varieties and sizes you want and at very reasonable prices.

I recommend buying at least part of one's Gladiolus bulbs in the fall, for several reasons.

One doesn't feel it so much if he buys part of his Glad bulbs in the fall instead of waiting until spring.

"The cream of the crop" is what I promise my fall Glad buyers.

Then, too, it's fun having your bulbs and bulblets right where you can watch them and keep them safely through the winter. Just to **"paw them over"** from time to time, and visualize the rare and beautiful spikes of bloom they will produce, is no small compensation, as any real fan will know.

I don't claim that my fall prices are always lower than in spring. Sometimes otherwise. But I fill the fall orders so liberally that the customer is 'way to the good anyhow.

Three Size Glad Bulbs

The **LARGE BULBS measure** (in diameter) from 1¼ inches up, mixed sizes. (Part No. 1 and part No. 2 sizes.) This size is designated by the letter **"L".**

MEDIUM BULBS measure ¾ inch to an inch or larger, mixed sizes. (Part No. 3 and part No. 4 sizes.) These Medium Bulbs bloom splendidly, though the large bulbs make still larger spikes and more of them. **Medium bulbs are designated by the letter "M".**

NOTE: If sold out No. 1 size, we may send all No. 2 for Large, but more of them. If out No. 3, will send all No. 4 but more of them. Usually have enough so can send as noted above, however.

SMALL BULBS are designated by the letter **"S".** They will average nearly half-inch in diameter. **Not sold as blooming sizes,** yet many will bloom.

NOTE: It will help us in filling your Glad bulb orders if you will mention the size each time: Large, Medium, Small, or just the letters **L, M** or **S.**

Prices, Terms, Delivery

Gladiolus prices are guaranteed for this fall only—until my spring catalogue is mailed in January. Many of these offers will be withdrawn altogether in January.

Each item on your Glad order must amount to not less than 10c.

TERMS: Cash with order, or ¼ cash with order. balance C. O. D. Or send ¼ with order, and balance any time before we are ready to ship.

DELIVERY: (Except wholesale lots.) I pay all postage or express charges, and guarantee safe delivery. **(My choice, whether parcel post or express.)**

If your express office is different from your mail address, please be SURE to give express office address also when ordering.

What Size Shall I Buy?

A **Large** bulb usually produces two spikes of blossoms, sometimes three. **A Medium** bulb will produce a splendid spike, maybe two. **A Small** bulb is not certain to bloom, but many smaller bulbs will bloom, producing smaller spikes.

Medium and **Small** bulbs are especially valuable for producing new, vigorous bulbs and many bulblets. **Large** and **Medium** bulbs best for blooms.

If You Pay Transportation

All Glad bulbs in this catalogue are priced PREPAID, **except wholesale** lots.

BUT, many customers have been much pleased with my special proposition.

If the customer pays express on Glads priced prepaid, I will send extra Glads to more than offset the express charges. I'll send extra bulbs of kinds on your order, or some good kinds, my selection, or maybe both.

If order part from wholesale list and part from prepaid lists, you will find it much to your advantage to do as many others have done. Just say, "Send all at my expense and add more Glads to **COVER SENDING COSTS ON PREPAID ITEMS."**

On good size orders express usually cheaper, as **bulbs** take a special low rate by **express.**

But if you specify parcel post shipment and you pay carrying **charges,** then we **ship** C. O. D. for postage. Please do not send any money in such cases for postage or try to estimate it. Nor say you will remit for postage later.

We keep no postage accounts. Either express, you pay express on arrival, or parcel post, the postage C. O. D.

Any Glads priced prepaid may be ordered f. o. b. Boulder, at the prepaid prices, but I then send you **more than enough extra stock to offset the carrying charges.** (Order should be $3.00 or more to take advantage of this offer.)

Send list for price on the lot, if you care to, but only for good sized lots, not a list amounting to only a few dollars. I'll make you price f. o. b. Boulder on the list. Please state definitely the kinds, sizes and quantities of each wanted.

We ship bulbs all winter. Prefer to ship soon as bulbs are ready, because have so many other shipments in spring. But, of course, will hold until spring if you say so. Safe delivery guaranteed. You take no risk, no matter when we ship.

SPRING DELIVERY. I will store orders amounting to $4.00 or more upon payment of 25 per cent or more on the order this fall. **But so far as possible, I need to ship Glad bulbs THIS FALL and early winter. Short on storage room.** Still more extra bulbs will be sent if you let me ship soon as bulbs are ready in fall and early winter.

NOTICE My fall Glad prices are made out early. If I am too low on some items, that's your good luck. If a bit high, I'll send plenty more Glads to adjust. Thus **prices are in YOUR favor "in the Long run."**

Second Choice, Please

Sooner or later, some kinds and sizes of Glad bulbs will be sold out. Saves a lot of time and correspondence if you will kindly name a few varieties that we may send in case sold out any on your order. **Or say if we may send another size.**

LONG'S Long Count

As all my old customers know, your GLAD orders will be filled most liberally. I could promise you more for your money, but I like to surprise you by doing better than I offer. **The larger the order, the more liberal the overcount.**

Tawhaki (New Zealand.) Terra-cotta, blooms with chocolate blotch. **(L.** 15c; 10—**$1.20) (M.** 10c; 10—80c).

Toa (New Zealand.) Another large husky Glad from New Zealand. Tall, straight spike. Florets large, well placed and plenty open. Color, rosy salmon, with darker blotch. Very robust, strong, healthy grower. **(L.** 15c; 10—**$1.20) (M.** 10c; 10—80c) **(S.** 2—12c; 10—50c).

Uncas (Webster.) New exhibition orange. **(L. Each, $1.50) (M. Each, $1.00) (S. Each, 60c).**

Vagabond Prince (Palmer.) Bronze-red, with rich orange-red throat blotches. Big seller. Order early. **(L. 20c; 10—$1.60) (M. 15c; 10—$1.20) (S. 10c; 10—$1.20).**

Valeria (Pruitt.) A very unusual soft shade of red. Was given an award of merit at the 1937 N. E. G. S. Trial gardens. 4 to 6 large flowers open at one time on a straight, stiff stem. **(L. 75c; 10—$5.00) (M. 38c; 10—$2.50) (S. 18c; 10—$1.50) (Blts. 10—30c; 100—$2.50).**

Veilchenblau (Pf.) One of the older "blues," still wanted. **(L. 2—12c; 10—50c) (M. 3—10c; 10—25c).**

Wasaga (Palmer.) A beautiful clear glowing buff with wide open ruffled blooms. Absolutely no markings or flecking of any kind. **One of the most beautiful varieties in existence. (L. 2—12c; 10—50c) (M. 3—10c; 10—25c) (S. 10—15c).**
(LONG SEASON ASSORTMENT, 50c)

Whero (New Zealand.) Immense scarlet-red with darker flecks at outer edges. **(L. 20c; 10—$1.60) (M. 15c; 10—$1.00) (S. 10c; 10—60c).**
(LONG SEASON ASSORTMENT, $1.00)

White Spire (Kinyon.) New. Florets perfectly placed, the 5-inch blossom neither crowded nor widely spaced on the stem. The petals are chamois-like in substance, thick and resilient. The stems are heavy and will hold upright 8 massive blooms open at once. A lovely pure glistening white with no markings. **(L. Each, $1.00.)** Large sizes only for sale.

Wurtembergia **(Pf.) Very large red with white throat.** One of Pfitzer's best. **(L. 2—12c; 10—50c) (M. 3—10c; 10—25c) (S. 10—15c).**

Zuni (Mitsch.) Some experts say this is today **the world's No. 1 Smoky Gladiolus.** A rich, sparkling silvery-rose, lit by a large terra cotta throat. Many 6½-inch florets open at one time. Hard to believe your own eyes when you see ZUNI—also, IRAK. **(L. $1.20; 10—$9.60) (M. 60c; 10—$4.80) (S. 30c; 10—$2.40).**

EARLY BIRD MIXED

Mixed from good named varieties, EARLY BLOOMING KINDS. Miss Greeley and other good earlies included. My selection. None labeled.

(L. 2—14c; 10—60c; 50—$2.20; 100—$4.00.)
(M. 10—40c; 50—$1.50; 100—$2.80.) Prepaid.

EXHIBITION MIXED

Each order mixed from fine named varieties, my selection, none labeled.

(L. 2—12c; 10—50c; 50—$2.00; 100—$3.60.)
(M. 10—30c; 50—$1.20; 100—$2.00.) Prepaid.

Best Blooming Bulbs

Not necessary to plant No. 1 size bulbs to produce grand exhibition spikes. No. 1 bloom just a little earlier, but well grown Nos. 2 and 3 bulbs, such as we send you, not far behind, and produce wonderful spikes also. No. 4 bulbs often make very good spikes and blooms. Smaller may bloom but not so good. They produce fine bulbs for the next year.

Frilled Pink—"New Era"

Introduced jointly by Ellis and Majeski.

"Eosine pink blended with La France pink. A pink that is PINK. We believe it to be the finest color of any Glad yet introduced. Soft cream throat, white midribs. Extremely ruffled (very frilled) 10 open florets and buds.

"Good placement and always straight. Heavy texture. Under subdued light it has no equal.

"1936 Shows—Illinois State Glad Show, first in both single and 3-spike class. In six showings NEW ERA is credited with seven blue ribbons."

To Large Buyers: Growers, dealers and others who can use large quantities of a variety, or a good big order of assorted varieties of Gladiolus bulbs or bulblets, please mail me a definite list of the kind and quantities you can use from my catalogue. Chances are I can save you money on the lot. **This is for large lots. Do not send me lists of a few bulbs of a kind for special quotations.**

Plenty Palmer's Pink Picardy

That's what you think—maybe—when you see this snapshot of one of my Picardy plantings. But this would not supply my customers. So I have other Picardy plantings. "The More the Merrier."

"Believe it or not," this glorious sea of Pink Picardy was produced from medium and small bulbs. And thousands of spikes were cut before this picture was taken.

Palmer's Pink Picardy at Practically Painless Prices

What a Glad! Originated by Mr. E. F. Palmer in Canada.

Color, soft shrimp pink, without flecking. Blotch of light flesh pink. Though gigantic in size, Picardy is anything but coarse. You just fall in love with it at sight.

Another Giant Novelty Glad—"TAIAROA"

It's from New Zealand. Many immense blooms open at once, well spaced and facing one way on good strong, straight spike.

The color is salmon-pink, flaked slate, with purple blotch. A spike of this with 8 or 9 open blooms attracts attention, and a half dozen or more spikes in a vase is a knock-out.

Prices now greatly reduced: (Large, 2—**16c;** 10—**70c) (Medium,** 2—**10c;** 10—**40c) (Small,** 10—**20c).** See other pages for prices on larger lots.

Pfitzer's Lovely Pink Glad—"SONATINE"

Introducer's description: "Color Atlas-rose, with small cherry-red blotches. The florets are exceptionally large, having very broad petals, and are strongly attached to the stems which grow to a height of 6 feet 6 inches. For cut flowers a wonderful future is predicted for Sonatine."

To me and many others, "Atlas-rose" means "watermelon-pink." At least I think of a luscious watermelon when I spy a grand spike of Sonatine.

Sonatine is one of the few Glads that you can cut without bending over—very much. You will have a fine long spike without cutting it low.

The spike is stiff and tough, seldom if ever crooks, ideal for shipping because buds lie close to the stem, and there is no excess baggage to the stem or spike.

Sonatine has been high priced, but this season we can offer it way below former prices and within the reach of all.

New Sonatine Prices: (Large, 2—**12c;** 10—**50c) (Medium,** 3—**10c;** 10—**25c) (Small,** 10—**15c). See other pages for prices on larger lots.**

"Your Subscription Expires"

As the magazines announce, "Your subscription expires with this number."

There is one way to renew your subscription to a magazine. **Pay up.**

There are two ways to keep yourself in good and regular standing on our mailing list. One is to send an order. **The other is to drop us a line asking for catalogues.**

We do not expect an order from everyone, every year. No mail order house does. **And** we are not stingy with catalogues, **so long as** they last.

We appreciate names sent us by customers and friends. But wish such names "hand picked." Only one, or a few, from any one person. Cannot use long lists. Do not offer any pay or premiums for names. **Consider** that you do your friend as big a favor as you do us when you have us place a name on our list for "Long's Garden Book."

About that 1937 Spring Catalogue. Wish I had some way of knowing just when is best time to mail out the annual spring catalogues.

If sent too early, the catalogue may be lost —or the pup may get hold of it and chaw it up —before you are ready to order. If too late— well, that's just too bad for you and us both.

However, we haven't much choice in the matter. Always so busy that best can do is to get the catalogues into the mails around Jan. 20th to 25th or so—maybe a bit later.

If you ordered goods, or requested catalogue last year, you don't need to write for your copy. Your name is on the preferred list. But the catalogue is free for the asking, whether you order or not.

If wire, please use WESTERN UNION service. Reason, no other telegraph company has office in Boulder. If wire us otherwise, your message must be phoned or mailed from Denver to us, causing delay and possible errors, if phoned.

Long Season Assortments

Many who have tried our "LONG SEASON ASSORTMENTS" order them year after year.

Each Assortment will be of one variety but the bulbs will be mixed sizes, from about ½-inch up to 1½ inches or so.

The idea is that different size bulbs bloom at different times.

So by planting the assorted sizes you get a LONG SEASON OF BLOOM of one variety from the one planting.

Not knowing just what sizes we may have in stock as orders are filled, we do not state sizes or quantities.

CAN GIVE MORE FOR YOUR MONEY if you "Leave it to me—JD" to send extra good value mixed blooming sizes, for the 50c or $1.00 Assortments.

PLEASE NOTE that each LONG SEASON ASSORTMENT is of one variety, mixed size bulbs of that variety,.the variety labeled on bag.

DO NOT SPLIT ASSORTMENTS in any way. This season we offer Assortments at 50c that we sold only in $1.00 Assortments before. Not so many for 50c as used to send for $1.00, you understand, but good and plenty for the 50c. The higher priced kinds are offered only in $1.00 Assortments.

Follow these instructions, save correspondence and delay. Thanks a lot.

These Assortments are listed in the descriptive list of varieties.

Super Special Long Season Mixed

Please note carefully that this is different from Long's Long Season **Assortments.**

The other Glad ASSORTMENTS are all of one variety in each Assortment, and the variety labeled. The bulbs are mixed sizes that will be in bloom a long time.

These Long Season MIXTURES are made up of many varieties. The bulbs are also mixed sizes, **but kinds not labeled.**

"SUPER SPECIAL" because this Long Season Mixture contains many grand varieties seldom, if ever, used in mixtures of any kind.

The bulbs are blooming sizes, from half inch or so up to nearly inch and a half.

"Don't Look Now," but I think I see someone putting in even more than these quantities when filling your order!

IF YOU PAY TRANSPORTATION on any bulbs, PRICED PREPAID, we add extra count to more than offset the sending cost parcel post or express charges. **Just say, "I'll pay transportation."**

WANT A SHORT TIME JOB?

DON'T GET EXCITED. It isn't a job that will last very long. But you get good pay for what you do.

THE JOB IS CLEANING SOME LOTS OF BULBS you can buy from us this fall. "AS IS."

"AS IS" means that we send you the kinds and sizes listed below, wtihout our going to the expense of cleaning or "rooting" them.

AS YOU MAY KNOW, many bulbs in the medium and small sizes don't have very large roots. They can be graded close to 100% as to size with roots still attached. We use oversize screens for grading, so that while a few may run a bit under size, a lot will run strong or even over size. (Many roots knock off in grading.)

WOULD MEAN TOO MANY DETAILS to list these "AS IS" lots bulbs at different prices than the cleaned ones. So to simplify the whole thing, we offer this way:

JUST ORDER ANY OF THE KINDS AND SIZES we list below, at the regular 100 or 1000 rates, either the prepaid or the f. o. b. rates. Then we will fill such items with one eye on the regular price and the other eye on the "AS IS" bulbs, and put in far more than enough extra bulbs of each "AS IS" lot to pay you good wages for doing the cleaning yourself.

THIS OFFER APPLIES TO BULBS ordered at the 100 or 1000 rates—25 or more bulbs of a kind and size, you know. See price tables or pages elsewhere.

These are 28 varieties we have in good supply and would be glad to "pay" you for helping us out on the "rooting" job. **Be sure to say "As Is" when ordering these.**

New Super Giant Deep Red Glad—"REWI FALLU"

One of the largest and most amazing red Glads ever seen or heard of. Originated by Mr. E. J. Fallu in Australia.

It is difficult to get a satisfactory photograph of a deep red Glad for illustration. My son Everett took this photo of a Rewi Fallu from our garden. If you don't believe your own eyes, then grow a good husky spike of Rewi Fallu yourself and measure the blooms. My guess is that you can grow them still larger.

On a spike grown from a bulblet the two lower florets each measured a bit over 5 inches across—without stretching my imagination or the petals. The spike had 12 buds. And this from a **BULBLET**, I'm telling you!

Imagine a tall, straight, strong spike with 6 or more massive, rich deep red blooms open at once, and plenty buds showing color! "Ain't dat sumpin'?"

Rewi Fallu is a healthy, husky grower. Makes fine clean bulbs, and good size bulblets that germinate easily and grow like weeds. Even small bulbs make good spikes, Medium bulbs still better.

One of my fields of **RED PHIPPS** Glads at the foot of the Rockies.

Red Phipps—A Winner

The blossoms have that charming Phipps sheen. Many open at a time.

Spikes long, straight and strong, but no excess baggage. Long flower heads.

Placement of florets splendid. Facing good. Florets set close to spike. No loppy, floppy habits. Ideal spike and buds for packing and shipping.

Scrambled Red Phipps!

LAST CALL FOR SCRAMBLED RED PHIPPS

Most of you will remember our offer last season—Red Phipps mixed with Picardy. Offered last year in all sizes.

We cleaned out all but the SMALL bulbs of this, and threw away all bulblets of it.

So, planted only small bulbs. These made mostly No. 2 and No. 3 size bulbs. Some smaller, and maybe a few larger.

This year we offer **"Scrambled Red Phipps" in mixed sizes only.**

HERE'S THE OFFER: Send not less than $1.00 (as much more as you care to), asking us to send you PREPAID, extra good value of sizes we have, and according to how much money you send. If not satisfied, return at our expense for full refund.

See June, 1938, magazine, Country Gentleman, for story about Mrs. Briggs and Red Phipps.

Red Phipps—"Red that IS Red"

Bulblets Per Pkt., 100, 1000—Prepaid

The number of bulblets in a packet is based on somewhat less than the 100 price for that variety. Real good value always. The larger the order the more liberal the overcount.

The Large, Lovely Glad

MILDRED LOUISE

Pure deep salmon-pink, petals tipped strawberry pink, blending to pinary yellow in throat, with faint spectrum penciling.

The stem is tall, strong, flexible, but not clubby.

Very large, wide open florets are faced and spaced exceptionally well, 16 to 22 buds to the spike.

The petals are firm, so much so that one customer said to me, **"That's the Glad with tin petals"**—meaning very resistant to heat and rough handling.

LARGE BULBS now 2 for 12c; 10 for 50c.
MEDIUM BULBS now 3 for 10c; 10 for 25c.
SMALL BULBS now 10 for 15c; 100 for $1.20.

JD Sez, Sez 'e

Customers write: "Why don't you list this Glad?" "What's become of one of my favorite Glads?" And so on.

The answer can't be given in a "coupla nut shells," but I'll touch on some reasons.

As you have seen, every year we add a good many new Glads to our list. Note the newcomers in this catalogue. There's a limit to the number of varieties we can handle in our bulb house and order filling department, without danger of messing things up, getting varieties mixed, and losing much efficiency in handling the crop and filling orders.

So you see, as we add new varieties, we must drop some of the older ones. Thus we weed out kinds that have not proven so good as others, and some that we have sold out and think better drop instead of start all over again, since the total number of varieties must be held down to what we can handle to best advantage for us and our customers.

I don't like those long sentences any more than you do, but the printer says he needs some more copy to fill up space, and wants it right now.

Let's see—where was I? Oh, yes, I was going to say that in fairness to varieties we drop and to other growers who still list them, it does not always mean that a Glad we discontinue is not still one of merit. Why, I even drop some because I can never learn to spell or pronounce their names! Neither can our customers. Sometimes I think there ought to be an open season for going after introducers who are guilty of this crime!

No, after all, I wouldn't purge the well-meaning introducers. But I'm for purging a lot of their introductions. Too many are trying to cash in on none-too-good new kinds, on reputations gained when they did create and offer a few really top notchers. Others are jumping in with "Marvelous Creations" for which there is no crying need whatever. Some don't know any better.

Sometimes there is so much wailing and weeping that in order to keep peace in our Glad family, we go back and pick up a few of the old-time favorites. Several are found again in this our 1938 fall list.

Mrs. Frank Pendleton made more money for commercial growers than almost any other Glad—maybe more than any other. The Glad fraternity has A. E. Kunderd to thank for this contribution, and many others, to the favorites of long ago. I would not advise buying much of it now, with so many finer kinds to be had. But some will want to see this again, "just for old times' sake."

Evelyn Kirtland. Stand up, all you Glad fans and commercial growers who grew and loved this splendid Glad. Sit down. Too many to count. I thank you, however. Mrs. A. E. Austin rates high indeed as a pioneer originator and writer in Madison Cooper's "MODERN GLADIOLUS GROWER," later changed to THE FLOWER GROWER. I think her masterpiece was and is Evelyn Kirtland. If introduced today with all the ballyhoo given some modern seedlings, this Glad would go over in a big way.

Mr. Madison Cooper, who has done so much to create interest in Glads and other flowers, now owns and edits **Madison Cooper's Gardening Magazine,** at Calcium, N. Y.

As I write this, Sept. 13, 1938, both Mr. Kunderd and Mrs. Austin are living. I'm happy to pay them this tribute.

Mrs. Leon Douglas, along with Mr. W. H. Phipps, and others, made Richard Diener famous. I've tried several times to discontinue Mrs. Douglas, but many customers keep asking for it. So last spring I bought some small bulbs of this favorite to plant. Now have large and medium sizes, as listed.

It was with deep regret that I learned just a few days ago that our old Glad friend, Richard Diener, passed away at his home, Oxnard, California, last August. In writing this tribute to him, I feel as I have felt many times, when I failed to send flowers to people while they were alive.

I knew Richard Diener well. Visited him at his gardens, was on judging teams with him at Glad shows. Spent a lot of money with him ($400.00 for my start of Mr. W. H. Phipps, for one thing), and had many interesting and helpful letters from him.

His Mr. W. H. Phipps was in its day what Picardy is today in the Glad world. Hybridizers would swell up and "point with pride," saying this and that were Phipps seedlings, as they do now when they offer a Picardy seedling.

Diener was way ahead of his time when he originated a Glad that could be grown to show 16, 18, 20 and even 22 large, fine blooms open at once. That was the famous "Phipps" for short. It is still good, but for some unknown reason the spikes vary a good bit, some with short or somewhat stubby flower heads. Even at that, the shorts are beautiful and the better spikes are grand.

I'm a poor salesman. I don't have much stock of any of these old-time Glads. According to all the rules, I should use this space telling more about some of the later and splendid Glad creations of which I now have large stocks and am offering at "Practically Palnless Prices."

But I just sorta got to dreaming when I sat down to write this, which, by the way, was at 4:15 this morning. And I do feel that many of you like to know some of the things I've mentioned. I wish space would permit mentioning more of the pioneer Glad folks, and their originations, **Mrs. Elizabeth Briggs,** for instance. But you can read a fine story about her and "Red Phipps," by looking up Country Gentleman magazine of June, 1938.

Joe Coleman is one more I want to take my hat off to. (Yes, I know that's no way to end a sentence.) But my hat's off to Joe. All I need to say is, MINUET. This is only one of a number of fine Glads Joe gave us. Well, he didn't exactly give them to us. I paid him $100.00 each for a bulb of Minuet and Mrs. Sisson. Never made a better investment. Mrs. Sisson hasn't done so well of late, so I no longer grow it. But MINUET! Years ago, I wrote in my catalogue, "Other lavenders may come and go, but Minuet will be among those present for years to come." Few prophets ever beat that.

Joe is still in the Glad game, but I am not sure of his present address. Ever so often I look him up and write him my appreciation of what he did for us Glad folks. I think he grows commercially now, at Atlanta, Ga., and does not advertise nationally. Joe still knows good Glads.

Speaking of $100.00 Glads. Or any others introduced at what seems high prices, contrary to what many believe and to what seems probable, the originators seldom cash in worth while. It's too long a story to relate here, but is of interest. Also regrettable. So don't begrudge a really good hybridizer what may seem a fabulous profit.

Sure, if I were a good salesman, I'd be talking more about our gardens and what we are doing (will the gent in the brown derby please lay off wise cracking. I didn't say **whom** we are doing) in preparing a feast of good things in Iris, Glads and other items in this 32-page bill of fare.

That's where Everett shines. As most of you know, son Everett came into this business after graduation from our state university a few years ago. He is taking over a good bit of the office work (and am I glad!) and practically all the handling of the fields and gardens. If I wanted to put on the dog, I'd say he is "production manager," which is what it really amounts to.

Everett gave me a jolt this season. I've been growing Glads since before he was born, and used to get pretty chesty about results at times. But Ev was either smart or lucky, or both, for he got the best stand of bulblets we ever had, and the growth has been wonderful. Bulbs looking great also. Thanks to manual training, Boy Scout work, and a natural "bent" along that line, when Ev needs something in tools for field or equipment for bulb house—if he can't buy what he wants, he just gets busy and invents and makes it.

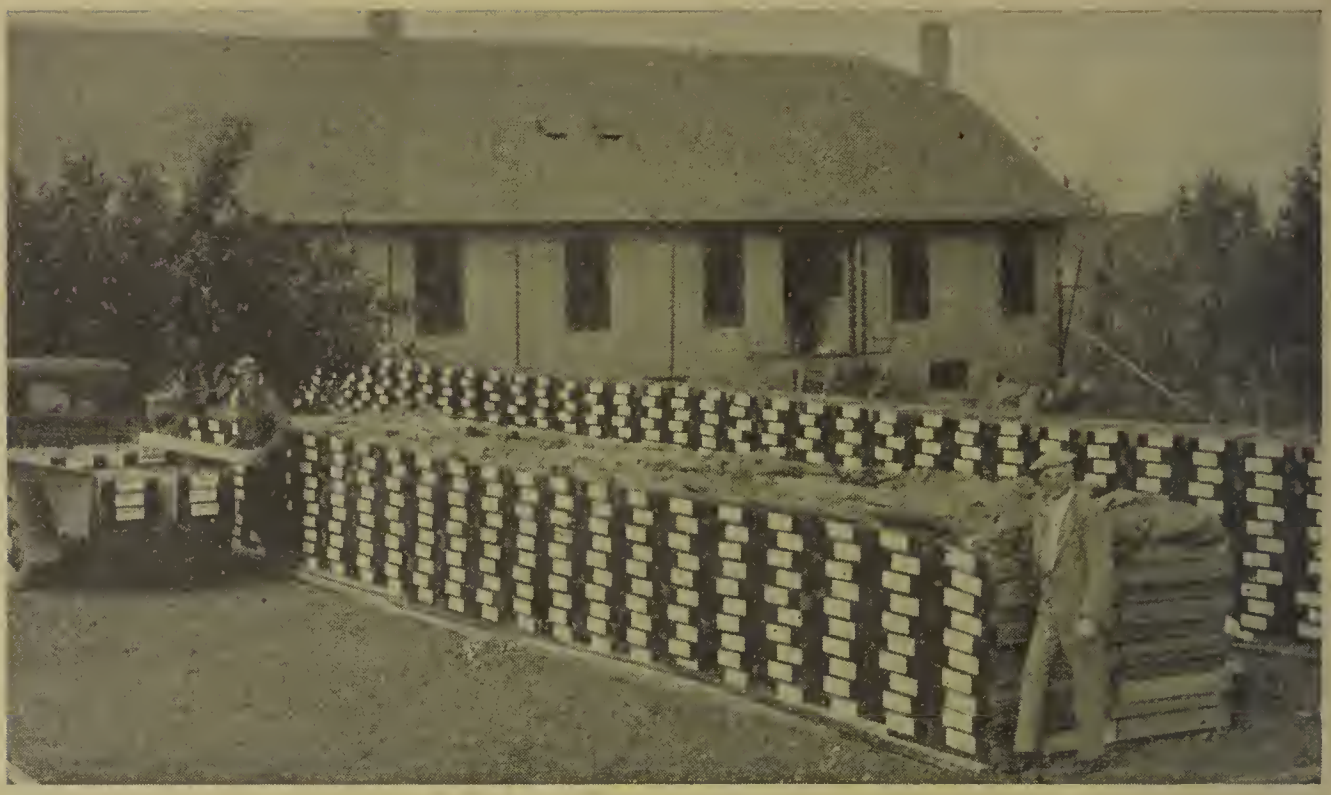
A glance at that picture on page 2 will assure you that Ev not only likes his Glads, but is daffy about Iris also, especially the dandy newer kinds. And I don't blame him. I'm that way myself. And I'd like to see the color of any real flower lover's hair who **wouldn't** go into raptures over such glorious Iris and Glads as are now available.

Watch out—the Iris bug will get you, just as the Glad bug did. Get your Iris into the ground this fall yet if possible. My leaflet, sent with each order, tells how to protect late plantings for winter. Tells lots more, too.

Speaking of hats off to originators of new and noteworthy Glads and Iris, the trouble is, no matter how many are mentioned, others will be left out, since space is so limited. So don't think for a minute I do not appreciate the good work of many more.

My hat's not only off, but tossed high in the air in appreciation of E. F. Palmer's Picardy and other super originations. Just think what it will mean when we get the Picardy type in many other colors! They'll be seeing us. Takes time, though.

Well, Folks, guess I'd better sign off before I get the gong. "Cheerio!"—JD.



Plenty of good equipment, and ideal storage facilities are needed to produce and deliver good Gladiolus bulbs.

We have thousands of fine mesh screen-bottom trays, and racks to slide them into.

Bulbs are first partly cured in Colorado's famous mile-high dry air and sunshine. Then the trays go into the large bulb house, where the process of curing, cleaning and grading is completed. Great precaution is taken to avoid mixing of varieties.
